

Ottobock Announces New Hires in Mobility Solutions

MINNEAPOLIS, MN – Ottobock announces the new hire of three territory sales representatives for its Mobility Solutions Business Unit.

Brad Flowers is responsible for the territory that includes North and South Carolina in his new position. Brad comes to Ottobock with extensive experience in medical device sales including capital equipment, OR sales, and medical devices in critical care settings. He is a graduate of the University of Michigan (Ann Arbor) with a Bachelor of Science in Kinesiology, and he also holds an Associate in Applied Science degree in physical therapist assistant studies from Michiana College in South Bend, IN.

Aaron Pierce is an Assistive Technology Professional (ATP) and is experienced in the areas of clinical evaluation and implementation, engineering design, project management, and business development. He holds a Bachelor of Mechanical Engineering (ABET) from the Rochester Institute of Technology (Rochester, NY) and a Master of Science in Engineering from Colorado School of Mines in Golden, CO. Aaron is responsible for the territory of Southern California for Ottobock's Mobility Solutions.

In his new position with Mobility Solutions, **Jeffrey Meischen** is responsible for the territory of Southern Texas and Louisiana. He brings to Ottobock over twenty years experience in the Durable Medical Equipment industry specifically in mobility, healthcare related sales, management, and clinical experience. He holds a Bachelor of Science in Healthcare Administration from Texas State University (San Marcos, TX).

“These new hires represent many years of industry experience, and their significant knowledge and records of professional successes are impressive,” says Matt Swiggum, Business Unit Director for Mobility Solutions for Ottobock. “We are pleased to have them on our team and look forward to the immediate impact they are sure to have with their customers and in the market.”

###

Minnesota-based Ottobock was established in 1958 as the Americas corporate headquarters of Otto Bock HealthCare, GmbH, based in Duderstadt, Germany. Ottobock has more than 5,000 employees worldwide in 46 branches and produces over 50,000 types of prosthetic and orthotic components, mobility and rehabilitation products.
