

FOR IMMEDIATE RELEASE

Otto Bock Introduces Vinyl Covering on OBSS Seat Cushions

Custom-carved to fit. Made to last.

Otto Bock HealthCare, the industry leader in custom-carved, digitized seating systems is now offering a vinyl cover option on its OBSS seat cushion, and the many benefits are quickly being realized.

“We recognize the number one priority for caregivers is quality time with their patients,” says Brad Ruhl, President & CEO of Otto Bock HealthCare U.S. “The moisture repellant vinyl helps to accomplish that by significantly reducing the time spent on routine upkeep and by minimizing patient down time out of their seating system.”

In addition to no covers to wash, the covering is durable and difficult for the impaired patient to pick apart, chew or shred, and the foam cushion will not degrade due to spills or incontinence.

Developed collaboratively with Gillette Children’s Specialty Healthcare, a national leader in clinical solutions for disabled children and adults, the vinyl covered OBSS seat cushions are processed with industry-leading accuracy and delivery times.

###

Minnesota-based Otto Bock HealthCare LP was established in 1958 as the Americas corporate headquarters of Otto Bock HealthCare, GmbH, based in Duderstadt, Germany. Otto Bock has more than 3,800 employees worldwide and produces over 25,000 types of prosthetic and orthotic components, mobility and rehabilitation products, and is the U.S. leader in delivering continuous passive motion (CPM) services and related therapies.
